<b>Description:</b>	I wanted to note that the following libraries are outdated and could be updated in the repos for ease of dvd playback:  libdvdread current 5.0.4. Available 6.0.0 libdvdnav current 5.0.3. Available 6.0.0 libdvdcss current 1.3.0. Available 1.4.2  I used PKGBUILD files from the arch repos to upgrade mine and it resolved dvd playback issues in both mythtv and kodi.
