

## LinHES - Bug # 1049: root / abs / core / php / linhes.ini libraries not found

<b>Status:</b>	New	<b>Priority:</b>	Normal
<b>Author:</b>	thekingofspain	<b>Category:</b>	
<b>Created:</b>	03/15/2020	<b>Assignee:</b>	
<b>Updated:</b>	03/15/2020	<b>Due date:</b>	
<b>Description:</b>	<p>Getting errors on not found dynamic libraries.</p> <p>Commented out the following in linhes.ini</p> <pre>#extension=mcrypt.so #extension=mysql.so #extension=openssl.so</pre> <p>I believe these are now included in the latest php release. I did not see any issues with the webs with these lines removed.</p>
