

LinHES - Bug # 1049: root / abs / core / php / linhes.ini libraries not found

Status:	New	Priority:	Normal
Author:	thekingofspain	Category:	
Created:	03/15/2020	Assignee:	
Updated:	03/15/2020	Due date:	
Description:	Getting errors on not found dynamic libraries. Commented out the following in linhes.ini #extension=mcrypt.so #extension=mysql.so #extension=openssl.so I believe these are now included in the latest php release. I did not see any issues with the webs with these lines removed.
