LinHES - Bug # 355: idle.sh is missing

Status:	Closed	**Priority:**	Normal
Author:	brfransen	**Category:**	
Created:	05/13/2009	**Assignee:**	jams
Updated:	12/25/2011	**Due date:**	12/31/1969
Description:	The idle.sh script that checks if mythtv is idle is missing. I believe it should be part of linhes-scripts. The script is located here: http://www.knoppmythwiki.org/index.php?binary=internal%3A%2F%2Ff2d54386f4609dcf9034d595ec5f5472.b in		

History

The link above is out of date. Attached is the version that was in 5.5 with and updated path for awk since it is in a different location in R6.

12/25/2011 03:10 pm - jams

- Target version changed from 8.0 to 6.00.04
