LinHES - Bug # 463: no audio using Firefox and OSS drivers

| Status: | Closed | Priority: Normal |
|--------------|---|------------------|
| Author: | jastreet | Category: |

| Description: | The OSS audio analog drivers are great and work well with my Intel DQ35JO board. Except that with Firefox | |
| | the audio is silent. ALSA audio drivers work fine under all situations but clearly sound inferior to the OSS drivers. Any guidance on a solution? | |

History

08/03/2009 09:12 pm - uteck

I had to install another package to get audio working with Firefox and OSS. I think it was called alsa-oss? but been awhile since I had to install it.

If you are using Firefox 3.5, then you need $\,$ xulrunner-oss.
