

LinHES - Bug # 486: post-install, iproute is in need of update

Status:	Closed	Priority:	Normal
Author:	Human	Category:	
Created:	08/10/2009	Assignee:	jams
Updated:	03/20/2010	Due date:	12/31/1969
Description:	This has happened for a while now. Post-install, iproute is always out of date on the first -Su operation: <code><code></code> [root@testbox ~]# pacman -Su :: Starting full system upgrade... :: Replace iproute with core-testing/iproute2? [Y/n] <code></code></code> I don't know what impact this has, but it's disconcerting and could lead to confusion, especially when it comes to bug reporting routing-related errors.
