LinHES - Bug # 499: mplayer-resumer-vdpau.pl didn't work for me without a slight change

Status:	Closed	**Priority:**	Normal
Author:	nickca	**Category:**	
Created:	08/13/2009	**Assignee:**	
Updated:	08/13/2009	**Due date:**	

Description:	mplayer-resumer-vdpau.pl would fail to properly run vdpau-detector, resulting in all videos being played in a window (without -fs, -zoom, etc. options from vdpau-detector). At line 135, I changed this:

```
<code>
my $mplayeropts=`./vdpau-detector $infile`; chomp $mplayeropts;
</code>
```

to this:

```
<code>
my $mplayeropts=`vdpau-detector $infile`; chomp $mplayeropts;
</code>
```

vdpau-detector is in mythtv's path (/usr/LH/bin), so you don't need to call it with an absolute path like that, plus it doesn't work anyway when because when mythfrontend executes mplayer-resumer-vdpau.pl, its working directory isn't /usr/LH/bin.

mplayer-resumer-vdpau.pl is deprecated. Please use mplayer-wrapper.pl, which incorporates the logic of mplayer-resumer-vdpau.pl. If the wrapper produces the same problem, please file a bug report for it.
