

LinHES - Bug # 502: MythTV: R5.5 -> R6 upgrade and digital audio

Status:	Closed	Priority:	High
Author:	Human	Category:	
Created:	08/14/2009	Assignee:	
Updated:	11/07/2010	Due date:	
Description:	Mplayer seems to work now. MythTV does not. R6's MythTV version seems to want different audio settings. ALSA:default/Default no longer does the trick.		

History

Hardware to test (will be updated as results change):

[Y] Chaintech AV-710, upgrade from R5.5

[N] onboard audio for Dragon 1.x, upgrade from R5.5

[N] onboard audio for Dragon 2.x, upgrade from R5.5

08/14/2009 04:05 pm - Human

Restoring both asound.conf and asound.state seemed to do the trick. Will keep testing.
