

LinHES - Bug # 561: suggestion: alternative config for hauppauge-grey (file included)

Status:	Closed	Priority:	Normal
Author:	graysky	Category:	
Created:	11/02/2009	Assignee:	jams
Updated:	03/27/2010	Due date:	

Description: I used the current config for this remote and it was very different from my R5.5 config. I include the ~/.mythtv/lircrc that I was using under R5.5 for your consideration. I think it's better :)

```
<code>
# lircrc.example.HauppaugeGrey-native.lirc
# 2003-09-17, Robert Kulagowski
# mailto:rkulagow@rocketmail.com
# Save this file in ~/.mythtv/lircrc
```

```
begin
    prog = mythtv
    button = Power
    config = Esc
end
```

```
begin
    prog = mythtv
    button = Go
# Swap the PiP windows
    config = N
end
```

```
begin
    prog = mythtv
    button = 1
    config = 1
end
```

```
begin
    prog = mythtv
    button = 2
    config = 2
end
```

```
begin
    prog = mythtv
    button = 3
    config = 3
end
```

```
begin
    prog = mythtv
    button = 4
    config = 4
end
```

```
begin
```

```
    prog = myhtv
    button = 5
    config = 5
end
```

```
begin
    prog = myhtv
    button = 6
    config = 6
end
```

```
begin
    prog = myhtv
    button = 7
    config = 7
end
```

```
begin
    prog = myhtv
    button = 8
    config = 8
end
```

```
begin
    prog = myhtv
    button = 9
    config = 9
end
```

```
begin
    prog = myhtv
    button = Back/Exit
    config = Esc
end
```

```
begin
    prog = myhtv
    button = 0
    config = 0
end
```

```
begin
    prog = myhtv
    button = Menu
    config = M
end
```

Below are keys used with the Hauppauge Grey remote

```
begin
    prog = mplayer
# This is the Red key
    button = Red
```

```

    config = Space
end

begin
    prog = myhtv
# This is the Green key
# We'll use it for "Information"
    button = Green
    config = I
end

# Note the "repeat = " strings in the volume and channel.
# This means that if you hold down the key, every nth instance will be
# passed. This depends on your system, so you may want to increase or
# decrease this and see what happens. repeat = 1 is probably too
# fast.

begin
    prog = myhtv
# This is the Yellow key
# Use it as a volume key
    button = Yellow
    repeat = 3
    config = F10
end

begin
    prog = myhtv
# This is the Blue key
# Use it as a volume key
    button = Blue
    repeat = 3
    config = F11
end

begin
    prog = myhtv
    button = Ch+
# This is the "up" on the central diamond
    repeat = 3
    config = Up
end

begin
    prog = myhtv
    button = Ch-
# This is the "down" on the central diamond
    repeat = 3
    config = Down
end

begin
    prog = myhtv

```

```
    button = Vol-
# This is the "left" on the central diamond
    repeat = 3
    config = Left
end

begin
    prog = mythtv
    button = Vol+
# This is the "right" on the central diamond
    repeat = 3
    config = Right
end

begin
    prog = mythtv
# Middle button on the diamond
    button = Ok
    config = Return
end

begin
    prog = mythtv
    button = Mute
    config = F9
end

begin
    prog = mythtv
# Change focus for PiP (to change channel in the other window)
    button = Blank
    config = B
end

begin
    prog = mythtv
# Toggle PiP on/off
    button = Full
