

LinHES - Bug # 623: Request to update lm_sensors to 3.1.2

Status:	Closed	Priority:	Normal
Author:	smartel	Category:	
Created:	02/08/2010	Assignee:	
Updated:	03/20/2010	Due date:	

Description: I installed lm_sensors package version 3.0.2-2 and it does not correctly detect my Intel motherboard DG43NB here is the output of sensors, every thing is in ALARM and it does not detect any fans and the temperature of CPU seems pretty high:

REV 3.1.2 of sensors is more current and has up to date support, would it be possible to update lm_sensors in the repositories ?

```
[mythtv@Linhes ~]$ sensors
