<b>Description:</b>	Hi ...  did an upgrade from 6.02.00 with 0.22 to 0.23 packages ... with pacman -Syu now my actual (cursor) menu item is "deleted" while moving cursor down / up.  Verwende sas Standard LinHES Aussehen ... hab beide Einstellungen für Zeichenmethode Qt und OpenGL verwendet. Kein Unterschied.

Hi ...

yes ... deleted theme cache did not change anything ... tried linhes and blue??? theme ... every screen and subscreen has this problem.

no function in linhes setup / settings ... mythvantage missing?

But now I have a second problem ... my boot filesystem on sda1 is broken ... double linked / used inods ... dammed \*grumble\* whats going on?

package database is lost an probles in /var/lib/pacman/... :( ...trying to repair soon

I saw the cursor problem in the Retro theme (not part of LinHES -- I downloaded it from the maintainer). Whatever menu item you select, the text disappears. As a work around I switched to Metallurgy theme which does not have the problem.

Hi ...

thanks, but in some menu lines inside the linhes theme the german text exceeds the width of the cursor.
