

LinHES - Bug # 711: screenshot generator regression

Status:	Closed	Priority:	Normal
Author:	Human	Category:	
Created:	07/24/2010	Assignee:	jams
Updated:	12/16/2010	Due date:	
Description:	I recently did an update in pacman, and MythTV's standard for the videometadata table changed again. It used to use "" to indicate that a video had no coverfile, then it started using "No Cover," but now it's back to "". Please grab these files to handle both possibilities. Tested in the latest LinHES, as of about a week ago. http://github.com/Human/mythic.tv-contributed-code/blob/master/screenshooter.sh http://github.com/Human/mythic.tv-contributed-code/blob/master/shootscreens.sh
