

LinHES - Bug # 712: mythweather .23-29 has missing dependencies

Status:	Closed	Priority:	Normal
Author:	goofee	Category:	
Created:	08/05/2010	Assignee:	
Updated:	08/15/2010	Due date:	
Description:	<p>After installing the latest updates, mythweather is no longer working. When I try to build the package locally I get the following errors resulting in an empty package.</p> <pre><pre> ./configure --prefix=/usr --disable-all --enable-opengl --enable-mythweather return 1 WARNING: disabling MythWeather; missing XML::XPath WARNING: disabling MythWeather; missing Image::Size WARNING: disabling MythWeather; missing DateTime::Format::ISO8601 Configuration settings: qmake /usr/bin/qmake MythArchive plugin will not be built MythBrowser plugin will not be built MythGallery plugin will not be built MythGame plugin will not be built MythMusic plugin will not be built MythNews plugin will not be built MythVideo plugin will not be built MythWeather plugin will not be built MythZoneMinder plugin will not be built MythMovies plugin will not be built MythNetvision plugin will not be built </pre> after installing XML::XPath, Image::Size, and DateTime::Format::ISO8601 using CPAN, the package builds and runs fine.</pre>
