Description:	I really appreciate that Cecil has been keeping mythstream working with the new versions of mythtv. I don't know if I jumped the gun by updating today or not, but after updating, I noticed that mythstream no longer works. The log shows: 2010-08-13 21:56:56.089 Plugin mythstream (0.23.201000710-1) binary version does not match libraries (0.23.1.201000710-1) 2010-08-13 21:56:56.092 Unable to initialize plugin 'mythstream'. 2010-08-13 21:56:56.093 Unable to configure plugin 'mythstream': not initialized 2010-08-13 22:04:17.163 Loading menu theme from /usr/share/mythtv/themes/defaultmenu//media_settings.xml 2010-08-13 22:04:18.811 Plugin mythstream (0.23.201000710-1) binary version does not match libraries (0.23.1.201000710-1) 2010-08-13 22:04:18.814 Unable to initialize plugin 'mythstream'. 2010-08-13 22:04:18.814 Unable to configure plugin 'mythstream': not initialized I am hoping that all that will be required is a recompile.
