

LinHES - Bug # 752: mythweb module path wrong

Status:	No user feedback	Priority:	Low
Author:	chael	Category:	Packages: Core
Created:	01/30/2011	Assignee:	mihanson
Updated:	02/21/2011	Due date:	02/01/2011
Description:	mythweb does not launch because it is looking for modules under /data/srv/httpd/htdocs/mythweb/modules_path instead of /data/srv/httpd/htdocs/mythweb/modules. I hacked this quick fix to avoid touching mythweb.php: <pre># cd /data/srv/httpd/htdocs/mythweb && ln -s modules modules_path</pre>
