LinHES - Bug # 807: dcron Version

Status:	Closed	**Priority:**	Normal
Author:	opel70	**Category:**	Packages: Core
Created:	12/23/2011	**Assignee:**	jams
Updated:	12/25/2011	**Due date:**	
Description:	I was watching something tonight and when it was over I started chatting with my wife before starting a new show. While wee were chatting the daily bakup process started running. At 9:45pm. This is a script that was in the /etc/cron.daily folder. From what I gather, things in the cron.daily folder should run at midnight. In doing some searching, I am guessing that this is due to a know issue with dcron 4-4.2 as found in this bug report: https://bugs.archlinux.org/task/18681 . Supposedly this has been fixed in the 4.5 release.

Since I see that there aren't any cron alternatives in the standard LinHES repos, is there any chance the version of dcron will be updated? | | |
