<b>Created:</b>	03/25/2012	<b>Assignee:</b>	cecil
<b>Updated:</b>	04/10/2012	<b>Due date:</b>	
<b>Description:</b>	There have been a lot of changes to XMBC and Linhes Lirc. I was difficult to get a hndle on what needed to be changed.  I had to the chance to completely reload my box today and all I had to do to get the remote working was to change a line in in the button here is the corrected buttom.  /usr/share/mythtv/themes/defaultmenu/library.xml  this is the correction that make the remote seamless once again.  CODE: SELECT ALL <!--#XBMC--> <button> <type>Menu_XBMC</type> <text>Launch XBMC</text> <action>EXEC /USR/bin/xbmc --lircdev /var/run/lirc/lircd</action> </button>  <!--#XBMC-->

small correction

```
<action>EXEC /USR/bin/xbmc --lircdev /var/run/lirc/lircd</action>
```

should read

```
<action>EXEC /usr/bin/xbmc --lircdev /var/run/lirc/lircd</action>
```

Thanks

**04/06/2012 08:53 pm - RacerX**

small correction

```
<action>EXEC /USR/bin/xbmc --lircdev /var/run/lirc/lircd</action>
```

should read

```
<action>EXEC /usr/bin/xbmc --lircdev /var/run/lirc/lircd</action>
```

Thanks

- *% Done changed from 0 to 100*

- *Status changed from New to Closed*

XBMC will be called via /usr/LH/bin/xbmc.sh. It prevents xscreensaver from activating and launches XBMC with the parameters for LIRC.
