

LinHES - Feature # 873: Please add libfile-homedir-perl to the repo

Status:	Closed	Priority:	Low
Author:	poflynn	Category:	
Created:	12/03/2012	Assignee:	jams
Updated:	12/11/2012	Due date:	
Description:	In order to help the SD folks help everyone else it would be nice if it were easier for linhes users to run the script in the posting below and provide QAM maps to all SD users (including linhes users). All I think we are missing to run the script is the libfile-homedir-perl library. Thx http://forums.schedulesdirect.org/viewtopic.php?f=3&t=1214		

Associated revisions

History

12/05/2012 08:06 am - jams

- Estimated time set to 2.00

- Status changed from New to Resolved

- Target version set to 8.0

Both the scripts and the perl module are included in R8.

Leaving this open just in case someone wants to make the same change in R7 series.

12/05/2012 08:27 am - poflynn

That's great, thx! I'm on 7.2 so I'd like it if possible.

12/10/2012 10:08 am - jams

- Status changed from Resolved to Closed

closing for 8.0

duplicated the ticket for 7.5
