linhes-udev-rules: This pkg contains the rules that are custom to linhes or once were in arch but removed.

Only the CD_DVD_symlinks rule has been tested

refs #884

01/31/2013 05:59 pm - jams

linhes-udev-rules: add rules for mce,streamzap,serial lirc devices.

refs #902

refs #884

02/01/2013 01:08 pm - jams

linhes-udev-rules: added hdprv_lirc rule.

All of these lirc rules are limited to exactly one device. If more then one device is present then only the last device in init will get the symlink

This had to be done back in the R7 days too:

http://cgkit.linhes.org/linhes_pkgbuild/commit/?h=R7-testing&id=98f897a6b29ef9f3a9c88a0e4d2cf49d5188b6fb

12/18/2012 05:10 pm - jams

Rules added..someone else will not to confirm the imon rules work
