

## LinHES - Feature # 898: Add ip/url information in static tuner list

<b>Status:</b>	Closed	<b>Priority:</b>	Normal
<b>Author:</b>	jams	<b>Category:</b>	Packages: Core
<b>Created:</b>	01/15/2013	<b>Assignee:</b>	jams
<b>Updated:</b>	01/23/2013	<b>Due date:</b>	
<b>Description:</b>	For network based cards like the hdhr the tuner map should include hyperlinks to the device. Depending on how the device is setup the ip information may get outdated and autocard will need to be re-run.		

### Associated revisions

---

**01/16/2013 10:54 am - jams**

linhes-config: list the ip of network tuners, and provide a link on the supplemental webpage

refs #898

**01/23/2013 03:46 pm - jams**

runit-scripts: add cetonproxy or bridge service. Added infinity\_usb service.

refs #899

refs #898

**01/23/2013 03:47 pm - jams**

supplemental-web: list\_cardmap.py, add hyperlinks to network devices in output for display on the local website.

refs #898

### History

---

**01/23/2013 03:53 pm - jams**

- Status changed from New to Closed

Hyperlinks to detected network tunes (via autocard.py) are included on the local website.
