LinHES - Bug # 903: Twinhan remote detected but install fails due to path issue

Status:	Closed	**Priority:**	Normal
Author:	girkers	**Category:**	Installation/Upgrade
Created:	02/24/2013	**Assignee:**	jams
Updated:	08/26/2013	**Due date:**	
Description:	I have just gone through the process of installing R8 and whilst the installer detects that I have a Twinhan_USB but the path fails: Couldn't open directory /usr/MythVantage/templates/remotes/other/Twinhan_USB And when you try to configure it through the front end it doesn't work either.		

History

02/25/2013 08:15 am - jams

Looking under templates I don't see a Twinhan_USB but I do see a Twinhan. Are those the same?

05/29/2013 08:39 am - jams

Girkers do you know if Twinhan_USB and Twinhan are the same?

06/04/2013 12:55 pm - jams

- Assignee set to jams

- Category set to Installation/Upgrade

- Target version set to 8.1

- Status changed from New to Closed

Twinhan_USB was renamed to Twinhan. All config files were updated to reflect the change.
