mv\_config.py should be updated as well so that the music dir does not get auto\_nfs mounted on the client.

```
SG_MAP_AUTONFS_SKIP=['media/tv','media/video','media/video_stuff','media/streaming']
```

Also video\_stuff should be updated to reflect it's new name

Thanks. I will do that. video\_stuff was done in commit:b571d821fa367c9977064954e238a72d736a4436
