LinHES - Bug # 944: perl-shell required by mplayer-wrapper, but not installed.

Status:	Closed	**Priority:**	Normal
Author:	doomedtx	**Category:**	Packages: Core
Created:	11/25/2013	**Assignee:**	brfransen
Updated:	11/27/2013	**Due date:**	
Description:	On a fresh install of R8, I tracked down a problem with Apple trailers to the mplayer-wrapper script. The error message was: @Can't locate Shell.pm in @INC (@INC contains: /usr/lib/perl5/site_perl /usr/share/perl5/site_perl /usr/lib/perl5/vendor_perl /usr/share/perl5/vendor_perl /usr/lib/perl5/core_perl /usr/share/perl5/core_perl .) at /usr/LH/bin/mplayer-wrapper.pl line 3. BEGIN failed--compilation aborted at /usr/LH/bin/mplayer-wrapper.pl line 3.@ There is a Shell.pm installed in /usr/lib/perl5/CPAN, but that is not from the perl-shell module. Installing perl-shell with pacman fixed the issue for me.
