

LinHES - Bug # 968: Python Issue

Status:	Closed	Priority:	Normal
Author:	opel70	Category:	Packages: Core
Created:	05/13/2014	Assignee:	brfransen
Updated:	05/13/2014	Due date:	
Description:	I am getting an error when trying to run the bluez-simple-agent tool: @[mythtv@tvroom ~]\$ bluez-simple-agent Traceback (most recent call last): File "/usr/bin/bluez-simple-agent", line 5, in <module> from gi.repository import GObject ImportError: No module named gi.repository@ It looks like the Python Gi object is not part of the python build in R8.1

- Status changed from New to Closed

- Target version set to 8.2

- Category set to Packages: Core

- Assignee set to brfransen

Testing has bluez 5 which no longer has bluez-simple-agent. pygobject and pygobject2 have been updated.
